

V2 ON/OFF VALVE

Product Description

This ON/OFF Fuel selector valve has the same highly desired quality as other products we offer: a distinctive, positive snap feel. The valve has two on and off positions depending on which inlet port is used.

Standard Selector

V2-70-P ON/OFF

- Long lasting Ceramic disc Technology
- Smooth action between each selection
- Standard selector (P) Lift to turn with 90° between each selection.

There are two input ports tapped 1/4"NPS one exit port tapped 1/4"NPT for the engine feed.

The input ports are linked so cross feed will occur in flight and when the OFF position is selected

1X Blanking plug is supplied for single tank installation.
